

"No one crafts a character quite like Kaira Rouda. In *Jill is Not Happy*, Rouda brings us Jill Tingley, a wife with a seemingly perfect life—and a sinister agenda. As Jill and her husband embark on a road trip, dark secrets unravel, and the journey becomes a wickedly suspenseful game of cat and mouse. Readers will be captivated by Rouda's signature blend of charm and chilling suspense."—**Liv Constantine, *New York Times* bestselling author of *The Next Mrs. Parrish***

Dear Editor/Producer:

USA Today bestselling and award-winning author [Kaira Rouda](#) has written more than twenty novels beloved by readers and acclaimed by critics, who've called her books "chilling, satisfying suspense" (*Good Housekeeping*) and "delightfully wicked fun" (*Kirkus Reviews*) that are "destined to fly off the shelves" (*Library Journal*). She's distinguished herself in the popular genre of psychological suspense by constructing seemingly perfect lives and then tearing down facades to reveal the inner, often grim truths of her characters. At the same time, Kaira's razor-sharp wit and wicked sense of humor shine through to counterbalance the darkness. Simply put, Kaira Rouda has great fun skewering the badly behaved in her fiction.

Her latest thriller, **JILL IS NOT HAPPY**, which Scarlet/Penzler Publishers will publish in hardcover and paperback on **June 10, 2025**, promises to shock, surprise and satisfy with its unflinching depiction of a longtime married couple at war and just how far they'll go to outwit and outplay each other.

From the outside, Jill Tingley has it all. She's married to her college sweetheart Jack and they're living the dream in Southern California. Wealthy, popular and genetically blessed, theirs seems to be an enviable life, though they've grown distant in recent years. Newly empty nesting with their daughter Maggie away at college, Jill suggests a road trip to reconnect. But the ugly truth is that Jack would rather do anything else than drive to Utah with his wife. He's only stayed in this marriage because of a terrible secret from their past that has bound them together all these years. Finally, Jack is finished with the charade of his marriage and plans to file for divorce as soon as they return, no matter the consequences. As it turns out, their shared dark history is only the tip of the iceberg Jill has been hiding. And so begins a cat-and-mouse game as a cunning wife—think Ripley in yoga pants—and a reluctant husband match wits and send each other to the edge—literally. All along, Jill tells herself that everything will be fine. She still loves Jack and knows they're meant to be. She'll do anything to keep him, just as she always has.

The author herself has been happily married to her husband for more than 30 years, but a recent road trip from Southern California to Utah with him caused her to wonder, "What would it be like to take this same drive with your partner, when you're feeling more than a little unhinged and desperately at odds with him? And what if all the secrets you've worked so hard to keep buried became exposed?"

Deliciously escapist and devilishly entertaining, Summer 2025 comes early with your advance reader's copy of **JILL IS NOT HAPPY**. Please dive in and include in your Summer anticipated reads lists and review and feature coverage. Kaira Rouda will be embarking on a national tour, with more details to come as to where she'll be appearing. I'll be in touch soon to discuss the possibilities.

Best wishes,
